Under the terms of the Amalgamation Agreement, TDG will amalgamate with Subco, and the Company will acquire all of the outstanding common shares of TDG in exchange for post-consolidation common shares of the Company (the “**Resulting Issuer Shares**”) on the basis of one Resulting Issuer Share for every three common shares of TDG (the “**Share Exchange Ratio**”). Outstanding convertible securities of TDG will be exchanged for convertible securities of the Company, with the number of Resulting Issuer Shares issuable and the exercise price of such convertible securities to be adjusted based on the Share Exchange Ratio. The deemed price of the Transaction is \$0.30.

It is anticipated that the Company will change its name to TDG Gold Corp. upon the completion of the Transaction (the “**Resulting Issuer**”).

Each Flow Through Unit will consist of common shares and common share purchase warrants of TDG that, when exchanged for securities of the Company, shall comprise one Resulting Issuer Share, that will qualify as a “flow-through share” under the *Income Tax Act* and one-half of one Resulting Issuer Warrant. Each whole Resulting Issuer Warrant will be exercisable by the holder thereof to acquire one Resulting Issuer Share at an exercise price of \$0.45 for a period of three years from issuance.

TDG currently has 75,734,904 common shares issued and outstanding and has no options, warrants or other classes of securities outstanding.
