**1. NATURE OF OPERATIONS**

---

TDG Gold Corp. (formerly Kismet Resources Corp.) (the “Company”) is a publicly traded company incorporated pursuant to the provisions of the British Columbia Business Corporations Act on March 14, 2018. The Company trades on the TSX Venture Exchange (“TSX-V”) under the symbol TDG. The Company’s head office and registered and records office address is Unit 1 – 15782 Marine Drive, White Rock, B.C. Canada V4B 1E6.

The Company is engaged in the identification, acquisition, exploration and, if warranted, development of mineral resource projects in British Columbia.

On December 11, 2020, the Company completed a reverse take-over transaction whereby the Company acquired all of the issued and outstanding common shares of TDG BC Assets Corp. (formerly TDG Gold Corp.) (“TDGBC”) by way of a three-cornered amalgamation (“Amalgamation”) between the Company, TDGBC, and 1266834 B.C. Ltd. (“Numco”), a wholly-owned subsidiary of the Company. Immediately prior to the completion of the Amalgamation, the Company changed its name from Kismet Resources Corp. to TDG Gold Corp. TDGBC amalgamated with Numco as one company under the name TDG BC Assets Corp., a wholly owned subsidiary of the Company (Note 4).

Pursuant to the Amalgamation, the former shareholders of TDGBC received one share of TDG for every three shares of TDGBC. All share and per share amounts in these consolidated financial statements have been restated to reflect this share consolidation.

These condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. As at January 31, 2021, the Company had working capital of \$3,943,821. Subsequent to January 31, 2021, the Company completed a private placement through the issuance of 6,963,074 units for gross proceeds of \$2,088,922 (Note 14). Management estimates that these funds will provide the Company with sufficient financial resources to carry out currently planned exploration and operations through the next twelve months. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. Although it is not possible for the Company to fully predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business operations. To date the Company has been able to raise equity and explore its exploration projects in British Columbia.

## **2. BASIS OF PRESENTATION**

---

### **Statement of compliance**

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board and the International Financial Reporting Interpretations Committee.

These condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements, and therefore should be read in conjunction with the audited consolidated financial statements for the year ended July 31, 2020.

### **Basis of measurement**

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

### **Functional and presentation currency**

These condensed interim consolidated financial statements are presented in Canadian dollars, which is the parent company’s functional currency as well as being the functional currency for the Company’s previously owned Asian subsidiaries.

### **Use of estimates and judgments**

The preparation of the consolidated financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

#### **(i) Critical accounting estimates**

Critical accounting estimates are estimates and assumptions made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and are, but are not limited to, the following:

The carrying value and the recoverability of exploration and evaluation assets - Management has determined that exploration and evaluation costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, scoping and feasibility studies, accessibility of facilities and existing permits.

## **2. BASIS OF PRESENTATION (continued)**

---

### **Use of estimates and judgments (continued)**

#### (ii) Critical accounting judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are, but are not limited to, the following:

Going concern – In the determination of the Company's ability to meet its ongoing obligations and future contractual commitments management relies on the Company's planning, budgeting and forecasting process to help determine the funds required to support the Company's normal operations on an ongoing basis. The key inputs used by the Company in this process include forecasted capital deployment, progress on permitting, results from the exploration of its properties and general industry conditions. Changes in these inputs may alter the Company's ability to meet its ongoing obligations and future contractual commitments and could result in adjustments to the amounts and classifications of assets and liabilities should the Company be unable to continue as a going concern (Note 1).

## **3. SIGNIFICANT ACCOUNTING POLICIES**

---

The accounting policies applied by the Company in these condensed interim consolidated financial statements are the same as those applied by the Company as at and for the year ended July 31, 2020.

### **New standards, interpretations, and amendments not yet effective**

There are no new standards that will have any significant effect on the Company.

## **4. REVERSE TAKE-OVER**

---

On December 11, 2020, the Company completed a reverse take-over transaction whereby the Company acquired all of the issued and outstanding common shares of TDGBC by way of a three-cornered amalgamation between the Company, TDGBC, and Numco.

Immediately prior to the completion of the Amalgamation:

- the issued and outstanding common shares of the former Kismet Resources Corp. ("Kismet") were consolidated on a 2:1 basis.
- the Company changed its name from Kismet Resources Corp. to TDG Gold Corp.

Pursuant to the Amalgamation:

- the Company issued the former shareholders of TDGBC 25,244,928 common shares (one share for every three shares of TDGBC).
- the shareholders of Kismet retained 2,000,000 common shares valued at \$600,000.
- the officers of Kismet retained 200,000 options valued at \$34,195. The fair value of the options was determined using the Black-Scholes option pricing model with the following assumptions: a risk-free interest rate of 0.25%; an expected volatility of 100%; an expected life of 1-3 years; a forfeiture rate of zero; and an expected dividend of zero.
- TDGBC amalgamated with Numco as one company under the name TDG BC Assets Corp., a wholly owned subsidiary of the Company.

**4. REVERSE TAKE-OVER (continued)**

On completion of the Amalgamation, the former shareholders of TDGBC own more shares of the Company than the former shareholders Kismet and accordingly the Amalgamation has been treated as a reverse take-over transaction with the financial statements of TDGBC being the continuing financial statements of the Company and Kismet being the company acquired.

The allocation of the cost of acquisition is summarized as follows:

<b>Consideration</b>	
Kismet shares retained	\$ 600,000
Kismet options retained	34,195
Transaction costs	241,126
<b>Total</b>	<b>\$ 875,321</b>

Receivables	5,349
Trade and other payables	(4,750)
<b>Total</b>	<b>\$ 25,760</b>
<b>Listing expense</b>	<b>\$ 849,561</b>

Concurrent with the Amalgamation, the Company completed a private placement for gross proceeds of \$4,033,610 (Note 10).

Also, concurrent with the Amalgamation, the Company issued 18,973,699 common shares to Talisker Resources Ltd. to acquire the Baker-Shasta, Mets, and Bot projects (Note 8 and 10).

The common shares of the Company began trading on the TSX-V on December 18, 2020 under the ticker symbol TDG.

**8. EXPLORATION AND EVALUATION ASSETS (continued)**

**Oxide Peak Property**

On December 22, 2019, the Company entered into an option and joint venture agreement with ArcWest Exploration Inc. ("ArcWest") pursuant to which the Company can earn up to an 80% interest in the Oxide Peak property located in the Toadoggone region of British Columbia.

Pursuant to the agreement, the Company issued ArcWest 1,202,141 common shares valued at \$180,321 on August 19, 2020 (Note 10).

The Company can earn an initial 60% interest in the Oxide Peak property (the "First Option") by fulfilling the following terms:

1. Cash payments as follows:
  - o \$15,000 on signing (paid);
  - o \$15,000 on or before December 31, 2020 (paid); and
  - o \$25,000 on exercise of the First Option.
2. Incurring \$2,400,000 of exploration expenditures as follows:
  - o \$400,000 by December 31, 2020 (incurred);
  - o An additional \$500,000 by December 31, 2021; and
  - o An additional \$1,500,000 by December 31, 2022.

Upon exercise of the First Option, the Company can earn an additional 20% interest for a total 80% interest (the "Second Option") by electing to complete a preliminary economic assessment within two years of exercising the Second Option.

Following the exercise or lapse of the Second Option, the parties will form a joint venture to hold and operate the Oxide Peak property, and each party will fund the costs associated with the Oxide Peak property proportionate to their respective interest. If a party does not contribute its share of the costs, the other party may contribute the shortfall, in which case, the interest of each party in the Oxide Peak property will be adjusted in accordance with a dilution formula. Should the Company's or ArcWest's interest be diluted to less than 10%, then that interest will convert to a 2% net smelter return ("NSR") royalty, of which 1% of the NSR royalty can be bought back for a \$2,000,000 cash payment at any time.

**e) Stock options**

The Company has a stock option plan (the "Plan") to be administered by the Board of Directors, which has the discretion to grant options for up to a maximum of 10% of the issued and outstanding share capital amount. Options granted must be exercised no later than ten years from date of grant or such lesser period as determined by the Company's Board of Directors. The exercise price of an option is not less than the closing price on the TSX-V on the last trading day preceding the grant date. Options vest at the discretion of the Board for directors, officers, employees and consultants, and in equal quarterly intervals over a term of 12 months for investor relations. The Plan further provides that at any such time the TSX-V rules differ from specific terms of the Plan, then the rules of the Exchange shall apply.

**12. SEGMENTED INFORMATION**

---

IFRS 8 “Operating Segments” requires operating segments to be identified on the basis of internal reports that are regularly reviewed by the chief operating decision-maker to allocate resources to the segments and to assess their performance.

The chief operating decision-maker who is responsible for allocating resources and assessing performance of the operating segments, has been defined as the Chief Executive Officer.

The Company operates in a single segment, being mineral exploration and evaluation.

All of the Company’s capital assets are located in Canada as at January 31, 2021 and July 31, 2020.

**13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

---

**Financial Instruments**

Financial instruments are classified into one of the following categories: fair value through profit or loss (“FVTPL”); fair value through other comprehensive income (“FVTOCI”); or at amortized cost. The carrying values of the Company’s financial instruments are classified into the following categories:

		<b>January 31, 2021</b>	<b>July 31, 2020</b>
Cash	FVTPL	\$ 4,711,943	\$ 1,822,505
Receivables	Amortized cost	83,773	19,121
Trade and other payables	Amortized cost	(27,678)	(152,475)

The Company’s financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.
- Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.
- Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

**13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)**

---

**Financial Instruments (continued)**

The carrying values of receivables and trade and other payables approximate their fair values due to their short-term nature. These financial instruments are classified as financial assets and liabilities at amortized cost and are reported at amortized cost. The carrying value of cash was determined based on Level 1 of the fair value hierarchy.

**Risk management**

The Company's risk management objectives and policies are consistent with those disclosed by the Company for the year ended July 31, 2020.
