
TDG GOLD CORP. LISTED ON OTCQX

White Rock, British Columbia, April 8, 2025 - TDG Gold Corp. (TSXV: TDG | OTCQX: TDGGF) (the “Company” or “TDG”) is pleased to announce that its common shares will commence trading at the market open on April 8, 2025, on the OTCQX Best Market (“**OTCQX**”) in the United States. TDG will trade under the symbol “TDGGF” in addition to its primary listing on the TSX Venture Exchange under its existing trading symbol “TDG”.

Fletcher Morgan, CEO of TDG commented: *“As TDG continues to grow, so too does our shareholder base. Trading on OTCQX will increase TDG’s visibility, liquidity and accessibility to our current and prospective U.S. and global shareholders.”*

The OTCQX Market is for established, investor-focused U.S. and international companies. To qualify for the OTCQX market, companies must meet high financial standards, follow best practice corporate governance, demonstrate compliance with any applicable U.S. securities laws and be current in their disclosure.

In addition, the Company has submitted an application to the Depository Trust and Clearing Corporation (the “**DTCC**”) to have the Company’s common shares eligible for delivery and depository services with the DTCC to facilitate electronic settlement of transfers of its common shares in the United States. Securities that are eligible to be electronically cleared and settled through the DTCC are considered “DTCC eligible”. This electronic method of clearing securities speeds up the receipt of stock and cash, and thus accelerates the settlement process for investors and greatly reduces transactional costs for participating stock brokerages. Investors can find the current Canadian financial disclosure of the Company on its profile on www.sedarplus.ca.

Qualified Person

The technical content of this news release has been reviewed and approved by Steven Kramar, MSc., P.Geo., Vice President, Exploration for TDG., a qualified person as defined by National Instrument 43-101.

¹**Adjacent Properties:** The Company has no interest in, or rights to, any of the adjacent properties mentioned, and exploration results on adjacent properties are not necessarily indicative of mineralization on the Company’s properties. Any references to exploration results or mineral occurrences on adjacent properties are provided for information only and do not imply any certainty of achieving similar results on the Company’s properties.

²**Mineral Resource Estimate (MRE):** All scientific and technical information relating to the TDG’s Shasta Project pertaining to the Shasta Mineral Resource Estimate (“Shasta MRE”) contained in this news release is derived from the Technical Report dated February 21st, 2025 (with an effective date of December 29, 2024) titled “2025 Updated Resource Estimate For The Shasta Deposit” (the “2025 Technical Report”) prepared by Sue Bird, MSc., P.Eng. of Moose Mountain Technical Services. The information contained herein in respect of the Shasta MRE is subject to all of the assumptions, qualifications and procedures set out in the 2025 Technical Report and reference should be made to the full text of the 2025 Technical Report, a copy of which has been filed with the securities regulators in each of the provinces of Canada (except Québec) and is available on www.sedarplus.ca.

About TDG Gold Corp.

TDG is a major mineral tenure holder in the historical Toadoggone District of north-central British Columbia, Canada, with 100% ownership of ~50,000 hectares of brownfield and greenfield exploration ground.

In 2023, TDG defined the 5.5 sq.km Greater Shasta-Newberry exploration target area (news release [Jan 25, 2023](#)) which is located directly adjacent to the gold-rich copper porphyry AuRORA¹ discovery announced by Freeport McMoran Inc. and Amarc Resources Ltd. (news release [Jan 17, 2025](#)).

In 2024, TDG identified new copper-gold target areas over an expanded footprint covering ~53 sq.km known as the ‘Baker Complex’ (news release [Feb 28, 2024](#)), including the North Quartz (news release [Apr](#)

[02, 2024](#)) and Trident (news release [Mar 07, 2024](#)) targets. In January 2025, TDG identified an additional porphyry copper +/- molybdenum target at Erebus located within the Bot project (news release [Jan 17, 2025](#)). In February 2025, TDG completed the Sofia acquisition, which includes porphyry copper +/- molybdenum +/- gold targets ([ARIS Report 41231](#)).

TDG's other projects include the former producing, gold-silver Shasta and gold-silver-copper Baker mines, which produced intermittently between 1981-2012, and the historical high-grade gold Mets developed prospect, all of which are road accessible, and combined have over 65,000 m of historical drilling. These projects have been advanced through compilation of historical data, new geological mapping, geochemical and geophysical surveys and, at Shasta, 13,250 m of modern HQ drill testing of the known mineralization occurrences and their potential extensions. In 2025, TDG published an updated Mineral Resource Estimate² for Shasta (news release [Jan 08, 2025](#)), which remains open at depth and along strike.

Forward Looking Statements

This news release contains forward-looking statements that are based on the Company's current expectations and estimates. Forward-looking statements are frequently characterized by words such as "expand", "continue", "potential", "increase", "visibility", "liquidity", "accessibility" "target", "prospective", "identify", "open", and variations of these words as well as other similar words or statements that certain events or conditions "may", or "will" occur. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause actual events or results to differ materially from estimated or anticipated events or results implied or expressed in such forward-looking statements. Such factors include, among others: the actual results of current and planned exploration activities; the uncertainty that any mineralization encountered on adjacent properties continues on to TDG tenure; the uncertainty that geological and/or geophysical and/or any trends, interpretations, or conclusions based on adjacent properties have relevance to TDG's tenure; whether geophysical anomalies and targets located on TDG's properties represent epithermal and/or porphyry-style mineralization and, if so, whether such mineralization has economic potential; whether exploration activities in 2025 and beyond identify mineralization of economic interest; changes in project parameters as plans to continue to be refined; accidents, labour disputes and other risks of the mining industry; the availability of sufficient funding on terms acceptable to the company to complete the planned work programs; delays in obtaining governmental approvals or financing; and fluctuations in metal prices. There may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise. Forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein.
